### PRODUCTION METHOD

Combines dark fruit with the citrus of the white grape. Earthy, floral, spicy notes, fresh almonds, green tea, black cherries and quince.

### SENSORY ANALYSIS

Deep red colored, clear and brilliant, with crimson reflections. The first nose is surprisingly rich, combining finesse and complexity. It offers notes of licorice, cherry as well as a floral profile introduced by the Obeidi, an originally Lebanese grape variety. The second nose offers notes of violets, linden tree and notes that recall forest vegetation. The attack is smooth and generous. The mouth is accompanied by floral and spicy notes, fresh almonds - from the Obeidi – green tea, black cherries and quince. The palate is rich and amazing, unveiling unique flavors. The finish is persistent, leaving room for woody notes and fruit.

### FOOD PAIRING

Pairs well with meat and game dishes, as well as seasoned cheeses, and Lebanese mezze.
